**On Thursday 18 April, the children of our staff team came in to visit us at Woodstock Residential Care Home to help our residents make their Easter bonnets.**

It was a lovely opportunity for the children to join in with the activities we do at our **Home** and spend time chatting with our ladies and gents.

We all really enjoyed seeing the children and our residents built up a lovely friendship with them.

It's very special seeing different generations being creative together - and what fantastic Easter bonnets they made! A super time was had by everyone.
