**Here at Woodstock Residential Care Home, we've all been feeling in the Christmas spirit!**

We've been getting creative making some **Christmas decorations** for our families. Our residents painted their hands white and used their handprints to create snowmen, to make a **card** to give to their loved ones.

We then got glitter, paints, pens and glue to create some **sparkly Christmas baubles** to give to our loved ones at our Christmas market. This was a messy, but fun activity to bring out our 'inner artistes'!

*Our ladies and gents sang along to Christmas music and reminisced about their favourite Christmas memories.*

Cards and festive decorations
