On Friday 28 June four of our Woodstock Residential Care Home residents joined in for an arts and crafts session when they enjoyed colouring together - helping each other with what colour to use and showing each other what they had done.

We used sticky back pots of all shapes and sizes and stuck **flowers, fairies, butterflies and autumn leaves** on them. These can be put on the windows of our residents' rooms so that light can shine through them.

A very relaxing and creative afternoon!
