**Our residents at Woodstock Residential Care Home got creative making a wall display of their dreams and wishes this week, when individuals were asked to decorate a hot air balloon in nice bright and summery colours.**

*We all enjoyed talking about whether we were lucky enough to have been on a **hot air balloon ride** and what sights could be seen. One of our residents commented that she was surprised for her birthday once with a hot air balloon ride over Leeds Castle and said it was beautiful.*

We then **sat with our residents and asked them what their dreams and wishes were**. Our ladies and gents were creative with their wishes and asked for things such as 'a limitless supply of Cornettos' or 'to drive a Jaguar'. We then stuck their wishes and dreams onto the hot air balloons to send them off into the sky!

*We now have a beautiful and bright display for everyone to see in the lounge. May our dreams come true!*
