**Over the weekend, our Woodstock Residential Care Home residents got sporty and watched the FA Cup Final between Manchester City and Manchester United.**

We divided our residents into the two different teams so we were able to cheer on our team and get competitive! The 'Blues' were delighted when Manchester City eventually won 2-1.

*As part of the fun we then set the challenge for our residents to score in a **penalty shoot out**. We set up our goal and giant football and challenged the two teams to see who could win. We all enjoyed **cheering each other on**, shouting 'GOOOOAL!' and seeing if our residents could header the ball back instead of kicking it.*

We **chatted about our residents' football experiences** and who their favourite teams were; some fondly remembered the **1966 World Cup squad** and talked about how much football has changed over the years.
