Over the weekend we decided to transform our residents' bedroom pictures to become more Christmassy and fun here at Woodstock Residential Care Home.

Our ladies and gents all got their pictures taken with some **reindeer antlers and bells** which we then printed. We then all sat and stuck some red noses onto our pictures so that we looked like Rudolph!

We all had fun and a laugh doing this and have enjoyed walking around our Home seeing the pictures displayed on our residents' bedroom doors.

Feeling festive!
