

Posted on January 16, 2023

Our residents at Woodstock Residential Care Home came together for a flower arranging activity recently, when they were able to work with a large variety of beautiful fresh blooms.

Everyone got creative and used their imaginations to create their own **personalised flower displays** to put on our dining room tables for everybody to enjoy.

Our residents and staff talked about the different flower varieties and which ones had the best scents.

What a lovely way to spend time together – our Home looks beautiful in bloom!

We loved all the beautiful flowers
