"Happiness is the smell of fresh flowers"

Woodstock Residential Care Home was filled the beautiful scent of fresh flowers on Thursday 13 September, thanks to a wonderful session of flower arranging and the hard work of our ladies here.

Our residents enjoyed an afternoon of flower arranging using an array of beautiful fresh flowers and small vases – all destined for table decorations for our dining room.

Everyone loved working together as a group, making their own table decorations. What a lovely way to brighten up the dining room and cheer up the Home!
