## Heartfelt message

Residents at Woodstock Residential Care Home had their pictures taken with a photo frame saying "From our heart to yours" to send home to their families in lovely cards that we made.

## Thank you Silk Elephant

We also included fabric hearts from the charity **Silk Elephant** who sent us a batch of the thoughtful hand-sewn hearts.

The charity was set up by a brother and sister who sadly lost their father at the start of the pandemic and wanted to do something to help people who had been separated from their loved ones because of the lockdown. See their website for more info:

## Sending our love

We posted our cards and hearts off to our residents' families to let them know we are thinking of them – this is a lovely way to keep in touch with everyone.
