**With the weather beginning to warm up, our residents at Woodstock Residential Care Home headed to the garden to give it some TLC, getting stuck in to some weeding, pruning and flower planting.**

They all **picked their favourite flower** from the selection and chose which pot or basket they wanted to brighten up.

We now have a beautiful selection of flowers in our garden to nurture, including **geraniums, pansies** and **million bells**. *We all look forward to seeing them bloom and attract the bees.*
