

Posted on July 20, 2022

Our residents at Woodstock Residential Care Home recently enjoyed getting together for gardening club in the sunshine.

We **watered the plants, swept leaves** and **cleaned our tables and chairs**, so we were all spick and span. Everyone then sat together with a nice glass of juice to admire all the hard work we'd done.

We all enjoyed talking about our favourite flowers and the gardens we used to tend to over the years.
