On Sunday 10 July everyone at Woodstock Residential Care Home gave their best shot in crazy golf, as we get ready for a week of British Open Golf (10-17 July).

Our residents loved encouraging each other to get a '*hole in one*' and our **portable golf course** made it easy for everyone to have a go around our **Home**.

We had some natural golfers in our midst, who got holes in one straight away and impressed everyone! We all **cheered and clapped** as we took turns and there was such a lovely atmosphere.

This activity was a great way to help **improve concentration and focus**, plus it's a good form of exercise too. *Great fun!*
