**Our ladies at Woodstock Residential Care Home loved having a natter this week, whilst they enjoyed some knitting and weaving together.**

This is one of their favourite activities at our **Home** and it's a great way to socialise over a shared pastime.

Barbara likes to **knit squares** for our local hospital's premature baby unit and Wendy is **knitting a scarf** ready for the change in season.

They enjoyed having a chat – with a cup of tea in one hand and their knitting in the other!

Enjoying a weaving board
