**On Tuesday 21 September we held one of the biggest events we've ever organised at Woodstock Residential Care Home – a sponsored walk for all our residents for National Alzheimer's Day.**

We decorated our **Home** with **blue and yellow forget-me-not flowers** and made a **giant banner** to welcome families to our big event.

We got lots of **families involved to help on the day to push or walk with their loved ones**. We all set off together in a big group to our **local park**. Those who couldn't go to the park still took part, doing a sponsored walk around our garden.

**Oasis School and headteacher Paul Murray kindly made and donated cakes** for us to sell on the day and donated prizes for our raffle. *We would like to say a huge thank you for their kind help and support.*

**Members of the Milton Regis Conservative Club also donated money**, as the club helped to promote our sponsored walk by buying the knitted forget-me-not flowers that our residents and staff had made. *Thank you to them for their kind donation of £105.*

The day was so special to us as it involved all our **families getting together** with their loved ones. After the walk we all came back to the garden where we **sold tea and cake**, had a collection for the **raffle** and had a **'guess the weight of the cake' competition**.

**So far we have raised £650** and **Barclays Bank have said that they will match our total** when we receive the rest of our donations; this can bring us to a **grand total of £1300**. *What an amazing achievement!*

*Thank you to everyone who was involved and to those who donated and joined in on the day – we couldn't have done it without you!*
