We were thrilled to welcome students from the Oasis Academy to Woodstock Residential Care Home last week, when they came to spend time with our residents.

The Academy runs a special Dementia Café that we have been lucky to take part in which is organised by Paul Murray and his lovely students.

The group brought **delicious cakes** with them, plus some **wooden decorations** for our residents and students to colour together. They also brought a **Christmas present** for each one of our residents, which was such a beautiful gesture.

Their visit was a wonderful way to **bring two different generation together** and get them chatting!

Huge thanks to Paul and his lovely students for their kinds gifts and their time in coming to see us – wishing them all a happy festive season!

We loved spending time with the students
