Our residents at Woodstock Residential Care Home had great fun flipping pancakes for Pancake Day and we made it into a competition to see how many times they could catch the pancake.

Connie won the competition with five flips in a row!

Our ladies and gents told us about how they **looked forward to eating pancakes** when they were children, as this was always a lovely treat. They had lots of sugar on them and didn't get told off for having too much as it was a special day!
