Our residents spent some time with our Recreation and Well-Being Champion Jane recently, compiling their own personal photo albums here at Woodstock Residential Care Home.

Everyone enjoyed **sorting out their pictures and reminiscing** about the activities they were doing in the photos.

Jane got the glue out and everyone got creative with their photo labels, sticking and labelling the photos carefully for their books.

This is another lovely way for families to see what activities we do here at **Woodstock** and they are lovely to keep to look over with loved ones and friends.

We loved creating our albums!
