At times like these it's the simple pleasure in life which mean a lot, like feeling the warmth of the sun in the garden which our residents at Woodstock Residential Care Home have been enjoying recently.

To make the most of the weather we held a **cream tea party outside** for our ladies and gents, with homemade scones and lovely cups of tea.

We decorated our Home and garden with lots of **bright colourful flowers and bunting**, and everyone enjoyed being outside. Even though we couldn't sit together it was still nice to see each other and spend time socialising.
