Is it the end for Captain Charles and his Woodstock Residential Care Home passengers?!

Have they been eaten by the sharks?!?

Captain Charles and those on board his **Nellsar Cruise** ship decided to take a dip in the sea to cool down after a hot day in the Caribbeanand it looks like they got eaten by the sharks! *Oh no!*

Can the crew save them and will they make it back to England for their last cruise stop?!

Is this the end for **HMS Woodstock**? *Watch this space!!!*

Shaaark!!
