Our Woodstock Residential Care Home residents have started to prepare for the festive season by creating clay Christmas tree decorations.

We first **rolled out the clay** and then used our **tree cutters** to create some different sized Christmas trees. When they had dried, we got busy with our **bright paints** and decorated them in festive colours.

These handmade decorations will be used for the Christmas tree that we will be having at the **Tunstall Church tree festival** next month. *We can't wait to go and see our creations on show!*
