Residents and staff at Woodstock Residential Care Home were delighted last week to receive their prize of Garden Centre Vouchers for their Nellsar in Bloom 'Themed Garden' Competition entry.

The **Woodstock** gardeners won second place with their lovely painted tree wall mural which was painted by residents and children from the local Oasis School. Handprints of residents and children together in a 'tree of life' is something that can continue to grow.

They also created a lovely Gnome House which residents really enjoyed painting and plotting – great fun and very colourful.

Congratulations to everyone who got involved in the projects – great work!
