

Posted on June 24, 2024

**On Sunday 23 June, during one of our focus groups at Woodstock Residential Care Home, we enjoyed some arts and crafts with our resident Daphne.**

Daphne really enjoyed choosing the **flowers and butterflies** for her **decorative pots**; we then **found a stick to tie them to** so she could display them. She loved this activity and was pleased with the end piece of art she'd made.

Jean also loved her one-to-one activity, making the same piece of craft. *We'll make sure to do this as a group activity in future as it went down so well with these ladies!*
