Last week at Woodstock Residential Care Home we had fun celebrating World Chocolate Day!

We all loved tickling our tastebuds with a **tasting session** as we enjoyed indulging in **hot chocolates**.

Residents had different hot chocolates to choose from including white, mint and milk chocolate, all topped with a generous amount of squirty cream, chocolate flakes, mini-marshmallows and sprinkles!

There were **smiles** all around trying the different flavours and some residents said they loved being treated and showered with different tasty treats. We loved **chatting about chocolate** and all our favourite types.

We would love for it to be World Chocolate Day every day!
