As it's Chelsea Flower Show week, we decided to practice our flower arranging skills at Woodstock Residential Care Home.

*Our residents had **30 types of flowers to choose from**, of different sizes, colour and shapes, including some lovely roses and chrysanthemums, to create their own unique award winning bouquets!*

Everyone chatted about their favourite flowers and tips for keeping flowers fresher for longer.

We were all very impressed with how our flower arrangements turned out and were excited to display them around our Home.
