

Posted on December 9, 2020

On Monday 7 December we hosted a festive arts and crafts afternoon to get us in the Christmas spirit here at Woodstock Residential Care Home.

We **painted and decorated paper plates** to make our own **Christmas trees**. We started by cutting the paper plates into three sections, the bottom being the largest portion and the top being the smallest, to resemble sections on a Christmas tree.

Once we had attached all the pieces together, we painted the tree green and added a bit of sparkle using glitter and sequins. We then carefully cut out stars and stuck them on top of our trees to add the finishing touch. They were all beautifully decorated and will look fantastic displayed in our **Home**.

We listened to Christmas music and had a sing along while we were painting. *We were all feeling relaxed and excited for Christmas!*

Painting our Christmas trees
