**On Thursday 14 October we all got stuck in to some creative pumpkin carving at Woodstock Residential Care Home.**

Our residents got together to **scoop out the insides** of their pumpkins using spoons or their hands which was lots of messy fun!

We then drew our **scary faces** on our pumpkins and carved them out, enjoying lots of chatter with friends as we worked on them.

We displayed our fantastic pumpkins at the front door of our **Home** for everyone to admire. *We all are very proud of our Halloween creations!*
