## Family visit with fur!

Our resident Muriel had a lovely outdoor visit with her son at Woodstock Residential Care Home on Thursday 27 May.

He brought his two **beautiful Labradors** with him – **Theo** and **Lenny**.

Muriel loved seeing them and giving them a biscuit each. Our staff enjoyed their company too and having a cuddle and a wet kiss from them both!

## Interactive cat

As well as the dogs, we've had some cat action at our **Home** recently too!

We've been gifted a **gorgeous interactive cat** from a relative of one of our residents. The cat is a beautiful ginger colour and meows and moves when you stroke it!

*Our residents are really enjoying this new addition to our Woodstock family!*
