**Our residents at Woodstock Residential Care Home have been starting to prepare for Christmas this week by creating some fabulous Christmas trees out of paper plates.**

We first had to cut the plates into 3 pieces and then stick them together to form a tree shape. We then painted them green and used **festive colours** to create tinsel and baubles on them, making them twinkle by adding a variety of coloured **glitter** to them.

A tree trunk was added to each one and a piece of ribbon, ready for them to be hung up around our Home.

We all enjoyed doing this activity together whilst listening to some **Christmas music** and having a sing along. One of our residents even said she felt like a little elf making Christmas all magical!

*Our handmade decorations will look wonderful displayed around Woodstock over the festive period.*
