**Our residents at Woodstock Residential Care Home made some tasty savoury treats for everyone to try recently – delicious pizza rolls with puff pastry, tomato puree, ham and grated cheese.**

First we **prepared all the ingredients** by grating the cheese, cutting the ham into small pieces and rolling out the pastry. We all had different duties and were happy to do our part to make this a great success.

Next we **spread the tomato puree** over the puff pastry sheets using the back of a spoon, making sure all the pastry was covered. After this our residents **sprinkled the cheese and ham** evenly over the base. We cut the pastry into strips and then began rolling them up. Lastly we **glazed them with an egg** wash to give them a nice golden colour and put them in the oven.

They smelt so delicious as they were cooking and we enjoyed getting our friends and family at Woodstock to try them – *they were yummy!*

*We can't wait for our next Cooking Club!*
