**Woodstock Residential Care Home's Recreation and Well-Being Champions Marina and Lauren, with Manager Nicola, were delighted this week to receive their certificate for creating the 'Most Interactive Trolley' for Nellsar's recent 'Tart Up Your Trolley' competition.**

**Woodstock's 'Jolly Trolley'** made by **Marina and Lauren** was created to take round to their residents' bedrooms to provide a variety of meaningful activities. They created their trolley to be bright and versatile, as it turns into a table for residents to sit at to do arts and crafts. The trolley has become a main focal point in the **Home** as they enjoy using the variety of different activities that are available to them.

They were presented with flowers and some bubbly for their hard work in making such a fun and engaging trolley for their residents.

*Well done ladies!*

**Woodstock care centre** Winner of 'The Most Interactive Trolley'

Woodstock's trolley being put to great use!
