We were treated to a visit from Zoolab on Monday 23 September here at Woodstock Residential Care Home.

[Zoolab](#) has a national network of Rangers who work with schools, the care sector and businesses to inform and entertain through their unique hands-on animal encounters.

Our residents had a lovely afternoon meeting a variety of fascinating animals. We had a 'walk about' session with the Zoolab staff, when our residents got to touch and hold different creatures.

Many of our residents enjoyed observing and holding the **African giant snail, snakes** and **giant millipedes**.

These sessions are such a good way to engage with animals and stimulate reactions and discussion.

Thanks for a fascinating afternoon Zoolab!
